DISABILITY ACCESS REQUIREMENTS AND RESOURCES

NOTICE TO APPLICANTS FOR BUSINESS LICENSES AND COMMERCIAL BUILDING PERMITS:

CERTIFIED ACCESS SPECIALIST INSPECTION SERVICES

Compliance with state and federal construction-related accessibility standards ensures that public places are accessible and available to individuals with disabilities. Whether your business is moving into a newly constructed facility or you are planning an alteration to your current facility, by engaging the services of a Certified Access Specialist (CASp) early in this process you will benefit from the advantages of compliance and under the Construction-Related Accessibility Standards Compliance Act (CRASCA, Civil Code 55.51-55.545), also benefit from legal protections.

Although your new facility may have already been permitted and approved by the building department, it is important to obtain CASp inspection services after your move-in because unintended access barriers and violations can be created, for example, placing your furniture and equipment in areas required to be maintained clear of obstructions. For planned alterations, a CASp can provide plan review of your improvement plans and an access compliance evaluation of the public accommodation areas of your facility that may not be part of the alteration.

A CASp is a professional who has been certified by the State of California to have specialized knowledge regarding the applicability of accessibility standards. CASp inspection reports prepared according to CRASCA entitle business and facility owners to specific legal benefits, in the event that a construction-related accessibility claim is filed against them.

To find a CASp, visit www.apps2.dgs.ca.gov/DSA/casp/casp_certified_list.aspx.

SERVICIOS DE INSPECCIÓN DE UN ESPECIALISTA EN ACCESO CERTIFICADO

El cumplimiento de las normas de accesibilidad estatales y federales relacionadas con la construcción garantiza que los lugares públicos sean accesibles y estén disponibles para personas con discapacidades. Ya sea que su empresa se mude a una instalación de nueva construcción o si está planeando una modificación de su instalación actual, al contratar los servicios de un Especialista de Acceso Certificado (CASp) al inicio de este proceso, se beneficiará de las ventajas de cumplimiento y bajo la Ley de Construcción. Ley de Cumplimiento de los Estándares de Accesibilidad Relacionados (CRASCA, Código Civil 55.51-55.545), también se benefician de las protecciones legales.

Aunque es posible que su nuevo edificio ya haya sido autorizado y aprobado por el departamento de construcción, es importante obtener servicios de inspección de CASp después de su mudanza, ya que se pueden crear barreras de acceso no deseadas e infracciones, por ejemplo, colocar sus muebles y equipos en las áreas que deben mantenerse libres de obstrucciones. Para las modificaciones planificadas, un CASp puede proporcionar una revisión del plan de sus planes de mejora y una evaluación de cumplimiento de acceso de las áreas de alojamiento público de sus instalaciones que pueden no formar parte de la modificación.

Un CASp es un profesional que ha sido certificado por el Estado de California para tener conocimientos especializados con respecto a la aplicabilidad de los estándares de accesibilidad. Los informes de inspección CASp preparados de acuerdo con CRASCA dan derecho a los propietarios de negocios e instalaciones a beneficios legales específicos, en
