MINECRAFT MODDING USING PYTHON

Ages 8-14

Playing Minecraft is cool! Making your own mods is way cooler! Modify the world's most popular video game using one of the world's most popular languages: Python. Python was used in developing programs like Google, YouTube, and Instagram. Through hands-on projects, students will learn how to control the player, build, and manipulate the Minecraft world. A \$20 lab fee is payable to the instructor on the first day of class.
